Maui – Hurricane ESF-6 playbook

Data as of 2026-10-28

County: Maui · **Hazard:** Hurricane

Planning aid. Supports, does not replace, county emergency plans. Not an official shelter list.

1. Summary

Calculated by open code from public data · see Sources (section 8)

People in the risk area **164,815**	May need a public shelter (likely) **4,944**	May need a public shelter (low – high) **3,296 – 8,241**
Speak English less than well (C) **4,067**	Use power-dependent medical equipment (estimate) (M) **1,074**	People with a disability (I) **17,024**
Age 65 and older (I) **31,848**	People in households without a car (T) **7,284**	Hearing difficulty (C) **5,702**
Vision difficulty (C) **2,861**	Cognitive difficulty (memory, decisions) (I) **7,359**	Age 65 and older, living alone (S) **6,898**
Known 2026 shelter sites usable for this hazard **8**	Homes in buildings with 10+ units: may lose elevator and AC in a long power outage **14,227**	

Source: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022 estimates), HHS emPOWER, FEMA National Risk Index v1.20; shelter rates: section 8.

Share of people in the risk area who may need a public shelter: low 2%, likely 3%, high 5%. One person can be counted in more than one need. Page 2 explains how to read these numbers.

Lahaina: Population is from the 2020 Census, before the August 2023 Lahaina fire, which destroyed much of the town. Use current County of Maui figures for Lahaina.

2. Scope: county total vs. one community

The county total is an upper bound. It counts every Census area in the county as hit at the same time. Real events usually hit fewer communities.

Largest single community (the Census areas with the most people who may need a shelter)

Hurricanes affect the whole county, so these are simply the most populous at-risk Census areas.

Community (Census area)	People in the risk area	May need a public shelter (low – likely – high)	Speak English less than well	Use power-dependent medical equipment (estimate)	People with a disability	Age 65 and older	People in households without a car
Waikapū / Waiheʻe-Waiehu Census area 308	8,062	161 – **242** – 403	6	37	669	1,100	95
Waiheʻe-Waiehu Census area 309.03	7,636	153 – **229** – 382	264	50	849	1,476	385
Wailuku Census area 310.01	6,977	140 – **209** – 349	87	30	622	897	192

Source: people and needs – CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022 estimates), HHS emPOWER and FEMA National Risk Index v1.20; community names – 2020 Census blocks and places, spellings from USGS GNIS.

To plan for one community, use the first row.

How to read this playbook

Example row

Community (Census area)	People in the risk area	May need a public shelter (low – likely – high)
Waikapū / Waiheʻe-Waiehu Census area 308	8,062	161 – **242** – 403

Read it as: about 8,062 people live in the risk area of Waikapū / Waiheʻe-Waiehu. If this hazard hits, between 161 and 403 of them may need a public shelter; 242 is the likely number.

Census area

A neighborhood-sized area the U.S. Census uses, usually 1,200–8,000 people. The number (for example "Census area 308") is its Census ID. Each area is named after the Census place where most of its people live. "near" means no one in the area lives inside a named place; "rural near" means most people live outside named places.

Low – likely – high

The share of people in the risk area who may go to a public shelter: low 2%, likely 3%, high 5%. Where the rates come from: South Carolina Emergency Management Division hurricane shelter planning factors (2%, 3%, 5%).

Who has access and functional needs (CMIST)

- **C – Communication:** people who speak English less than well (they may need interpreters and translated messages), and people with hearing or vision difficulty.
- **M – Medical:** people who use power-dependent medical equipment (an estimate from HHS emPOWER).
- **I – Independence:** people with a disability, people with cognitive difficulty (memory, decisions) and people age 65 and older.
- **S – Safety and support:** people age 65 and older living alone, children and people living in group quarters (in the needs table).
- **T – Transportation:** people in households without a car.

County total vs. one community

The county total counts every Census area in the county as hit at the same time, so it is an upper bound. Use the "Largest single community" table to plan for an event that hits one community.

Map

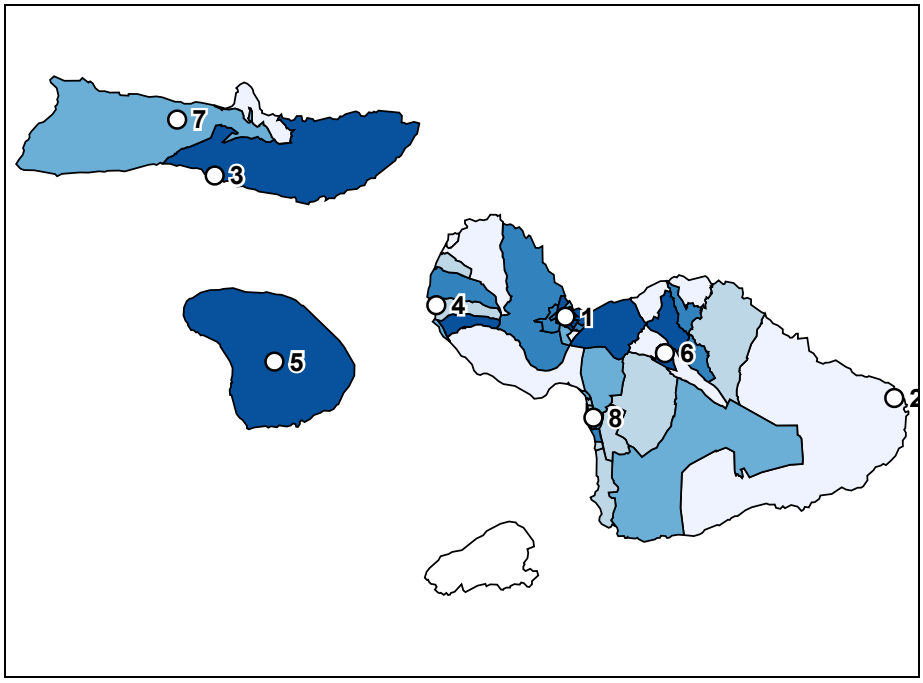

Darker blue means more people with needs, from "Lowest need" to "Highest need". A solid outline marks a Census area in the risk area; a dashed outline is outside it. Symbols: ○ usable site, △ check flood zone, ◇ flood risk not mapped, ⊠ not for this hazard. Numbers on the map match the site key.

Why population numbers can differ

People in the risk area come from ACS 2018–2022 estimates (through the CDC Social Vulnerability Index 2022). Community names use 2020 Census counts. County totals in the plan use Census estimates for 2025. Each table names its source underneath.

Every number is a planning estimate. In an event, follow county announcements.

3. Map: people with needs and known sites

Site key

1 = Baldwin High School (usable)

2 = Hāna High & Elementary School Cafeteria (usable)

3 = Kilohana Recreation Center (usable)

4 = Lahaina Civic Center Gym (usable)

5 = Lānaʻi Youth Center (usable)

6 = Mayor Hannibal Tavares Community Center (Social Hall) (usable)

7 = Molokaʻi Baptist Church (usable)

8 = South Maui Community Park Gym (usable)

- Lowest need (0–258 people)
- Lower (258–392 people)
- Middle (392–647 people)
- Higher (647–1,016 people)
- Highest need (1,016–1,924 people)
- Solid outline: Census area in the risk area
- Dashed outline: outside the risk area
- Usable site
- Check flood zone
- Flood risk not mapped (FEMA zone D)
- Not for this hazard

Color = people in the risk area who speak English less than well, use power-dependent medical equipment, have a disability, or live without a car (a person can be counted more than once). No street map: Census area outlines only.

Source: people and needs – CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022 estimates), HHS emPOWER and FEMA National Risk Index v1.20; community names – 2020 Census blocks and places, spellings from USGS GNIS.

No 2026 activated site within a 15-minute drive (normal traffic), for sites usable for hurricane: 19 of 45 populated Census areas. With DOE candidate schools usable for this hazard: 13 of 45. This is not a statement that the area has no shelter: counties designate and open shelters for each event, and many public buildings are not on the 2026 list.

Drive-time matrix, per hazard: shortest drive from the area's land point to a 2026 activated site usable for that hazard on the same island; scenario 2 adds the 5 nearest DOE candidate schools usable for it. Site locations: U.S. Census Geocoder, checked against Esri ArcGIS World Geocoder. Travel times: Esri ArcGIS routing, normal traffic. Powered by Esri. Geocoding and routing: Esri ArcGIS Location Services.

4. Known sites (opened in 2026 events)

Compiled from official county releases · verified by team

#	Status for this hazard	Site	Address	Why	Times opened in 2026
1	✓ **Usable**	Baldwin High School	1650 Kaahumanu Ave., Wailuku	No site check for this hazard	1
2	✓ **Usable**	Hāna High & Elementary School Cafeteria	4111 Hāna Highway, Hāna	No site check for this hazard	1
3	✓ **Usable**	Kilohana Recreation Center	344 Kamehameha V Highway, Kaunakakai	No site check for this hazard	1
4	✓ **Usable**	Lahaina Civic Center Gym	1840 Honoapiʻilani Highway, Lahaina	No site check for this hazard	2
5	✓ **Usable**	Lānaʻi Youth Center	101-165 Fifth St., Lānaʻi City	No site check for this hazard	1
6	✓ **Usable**	Mayor Hannibal Tavares Community Center (Social Hall)	91 Pukalani St., Pukalani	No site check for this hazard	1
7	✓ **Usable** ⚠ Check dam zone	Molokaʻi Baptist Church	495 Puupeelua Ave., Hoolehua	No site check for this hazard	1
8	✓ **Usable**	South Maui Community Park Gym	1501 Liloa Drive, Kīhei	No site check for this hazard	2

Source: county announcements of sites opened in 2026; FEMA flood zones (Hawaiʻi Statewide GIS, State DFIRM); tsunami evacuation zones (Hawaiʻi Statewide GIS).

Site locations: U.S. Census Geocoder, checked against Esri ArcGIS World Geocoder. Travel times: Esri ArcGIS routing, normal traffic. Powered by Esri. Geocoding and routing: Esri ArcGIS Location Services.

Candidate public schools in this county usable for this hazard: **34**. Sites are places a county has opened before; not every site opens in every event. Always follow current county announcements.

Care facilities in hazard zones

No facility-level zone screen for this hazard (the same as for shelter sites). Care facilities in this county: 76.

Source: CMS Provider Data Catalog (dialysis facilities, nursing homes, hospitals; facility addresses only), located with Esri ArcGIS World Geocoder; zones: State tsunami evacuation zone and FEMA flood zones (Hawaiʻi Statewide GIS, State DFIRM).

Source: Ready Keiki Locator, all pre-K sites (Office of the Lieutenant Governor, published through Hawai‘i Statewide GIS): licensed group child care, public pre-K and charter pre-K sites only – no family child care homes; zones: State tsunami evacuation zone and FEMA flood zones (Hawai‘i Statewide GIS, State DFIRM).

5. Needs and proposed partners

Likely estimate. Roles are **proposed – to be confirmed with partner**. The pledged column stays blank until a partner confirms it.

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Cots / sleeping space	4,945	cots	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies	—	confirm with partner
Floor space (≤72 h)	98,889	sq ft	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies	—	confirm with partner
Floor space (≤2 weeks)	197,778	sq ft	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies	—	confirm with partner

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Water	4,945	gal/day	American Red Cross	Hawai‘i Department of Human Services (DHS), County Emergency Management, Hawai‘i Department of Education (DOE) – schools, The Salvation Army, Hawai‘i VOAD (Voluntary Organizations Active in Disaster), Faith-based organizations, Business community	—	confirm with partner
Meals	9,889	meals/day	American Red Cross	Hawai‘i Department of Human Services (DHS), County Emergency Management, Hawai‘i Department of Education (DOE) – schools, The Salvation Army, Hawai‘i VOAD (Voluntary Organizations Active in Disaster), Faith-based organizations, Business community	—	confirm with partner
Toilets (≤72 h)	124	toilets	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies	—	confirm with partner

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Toilets (≤2 weeks)	248	toilets	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies	—	confirm with partner
Shelter staff	334	staff per shift	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies, Hawai‘i VOAD (Voluntary Organizations Active in Disaster), Office of Hawaiian Affairs (OHA), The Salvation Army, Philanthropy (foundations and donors), Business community	—	confirm with partner
Power outlets for power-dependent residents	33	outlets	Hawai‘i Department of Health (DOH)	County Emergency Management, Health care organizations (incl. managed health care), Utilities	—	confirm with partner

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Accessible transport	7,284	people in no-vehicle households at risk	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Transportation (DOT), Business community, Other state and county agencies	—	confirm with partner
Pet space – dog households	733	households with a dog	County Emergency Management	Hawai‘i VOAD (Voluntary Organizations Active in Disaster)	—	confirm with partner
Pet space – cat households	428	households with a cat	County Emergency Management	Hawai‘i VOAD (Voluntary Organizations Active in Disaster)	—	confirm with partner
Children's area	1,058	children in shelter	County Emergency Management	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i Department of Education (DOE) – schools, Hawai‘i State Public Library System, American Red Cross, Faith-based organizations, Other state and county agencies, Hawai‘i Department of Health (DOH), Health care organizations (incl. managed health care), Philanthropy (foundations and donors)	—	confirm with partner

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Interpreters – Ilocano	51	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner
Interpreters – Tagalog/Filipino	28	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner
Interpreters – Spanish	9	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner

Need	How many	Unit	Proposed lead	Proposed support	Pledged by partner	Still needed
Interpreters – Japanese	7	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner
Interpreters – Marshallese	4	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner
Interpreters – Hawaiian	3	people with limited English in shelter	Hawai‘i Department of Human Services (DHS)	County Emergency Management, Hawai‘i Emergency Management Agency (HI-EMA), Hawai‘i State Public Library System, Hawai‘i Department of Health (DOH), Office of Hawaiian Affairs (OHA), Faith-based organizations, Other state and county agencies	—	confirm with partner

Source: likely estimate × planning factors (section 8; Florida Division of Emergency Management 2010; AVMA (2020 data) for pets).

Service animals stay with their handler (ADA); not counted as pets.

Also plan for (county counts, not included in the totals above)

Group	People	Detail	Date
People experiencing homelessness (Point-in-Time count)	651	sheltered 253, unsheltered 398; one-night count	2026-01-25

Group	People	Detail	Date
Visitors on island (average per day)	55,290	Maui 54,500; Molokaʻi 385; Lānaʻi 406	2025 (annual average)
People in dam evacuation zones	25,567	State dam evacuation zones	zones fetched 2026-10-28

Source: Point-in-Time counts – Bridging the Gap 2026 report (Hawaiʻi, Maui, Kauaʻi; night of Jan 25, 2026) and Partners In Care 2026 count for Oʻahu as released by the City and County of Honolulu; visitors – DBEDT State of Hawaiʻi Data Book 2025, Table 7.06. Details: section 8.

State dam evacuation zones show the area that could flood if a dam fails; they are planning zones, not a forecast.

Source: State of Hawaiʻi dam evacuation zones (published through Hawaiʻi Statewide GIS). People = share of each Census area inside a zone × its population, the same method as for the tsunami zone. Shares of people are 2020 Census block populations whose block internal point is inside (Census TIGER internal points), divided by the Census area's 2020 block population; the share is then applied to the area's population.

Kalawao County (Kalaupapa, Molokaʻi) is planned with Maui County.

Who else to plan for

- **Domestic-violence survivors:** Served through confidential providers; no counts by design.
- **Off-grid households:** No public Census-area data; county and health partners to supply.
- **People on dialysis or receiving home care:** No public Census-area data; county and health partners to supply.
- **Earthquake:** Not modeled; listed as a limitation in the plan.
- **Caregivers and personal care attendants:** Stay with the person they support; count them for cots, meals and space.
- **Behavioral health:** Mental-health staff at each shelter (ratio: section 8).
- **Niʻihau:** Privately owned island, no public shelter; plan with the landowner and Kauaʻi County.
- **Families afraid to seek shelter (including immigrant families):** The county publishes who may use shelters; trusted community messengers share it.

6. Decision points

Proposed – supports, does not replace, county plans.

When	Trigger	Action	Owner (proposed)	Support
BEFORE	Central Pacific hurricane season start (June 1) NOAA Central Pacific Hurricane Center	Confirm partner capacity pledges (cots, meals, generators, accessible vehicles, interpreters) and the list of sites usable for wind; refresh priority-outreach tracts.	County Emergency Management (each county)	Hawai‘i Department of Human Services (DHS), Hawai‘i Emergency Management Agency (HI-EMA), American Red Cross
BEFORE	Hurricane Watch NOAA NWS / Central Pacific Hurricane Center	Contact priority tracts (power-dependent, no-vehicle, limited English); confirm which shelters will open, generator power for medical devices, and accessible transport.	County Emergency Management (each county)	Hawai‘i Department of Health (DOH), Utilities, Hawai‘i Department of Transportation (DOT), Hawai‘i Department of Human Services (DHS)
BEFORE	Hurricane Warning NOAA NWS / Central Pacific Hurricane Center	Open shelters including AFN-capable sites; start accessible transport for residents without vehicles; send pre-approved multilingual messages.	County Emergency Management (each county)	American Red Cross, Hawai‘i Department of Human Services (DHS), Hawai‘i Department of Education (DOE) – schools, Hawai‘i Department of Transportation (DOT)
BEFORE	Before each season: who may use shelters (no official product) County (sets the date)	County confirms and publishes who may use shelters and what ID is needed; trusted community messengers share it.	County Emergency Management (each county)	Hawai‘i Department of Human Services (DHS), Faith-based organizations, Office of Hawaiian Affairs (OHA), Hawai‘i VOAD (Voluntary Organizations Active in Disaster)

When	Trigger	Action	Owner (proposed)	Support
DURING	Hurricane conditions / county shelter-in-place order NOAA NWS / Central Pacific Hurricane Center; County	Run open shelters, track occupancy and power-dependent residents, pause outdoor transport until winds drop, resume when the county says safe.	County Emergency Management (each county)	American Red Cross, Hawai‘i Department of Human Services (DHS), Hawai‘i Department of Health (DOH)
AFTER	Warning cancelled or all clear County / NWS / PTWC	Feeding, re-power for medical devices, recovery sheltering for displaced households; coordinate donations and volunteers.	American Red Cross	Hawai‘i VOAD (Voluntary Organizations Active in Disaster), The Salvation Army, Faith-based organizations, Utilities

Source: National Weather Service, Central Pacific Hurricane Center and Pacific Tsunami Warning Center product definitions (links: section 8).

7. Priority outreach and languages

Top 10 Census areas by number of people with needs

#	Community (Census area)	People in the risk area	Use power-dependent medical equipment (estimate)	People with a disability	Speak English less than well	People in households without a car	Needs total (a person can be in more than one column)
1	Kahului Census area 311.02	5,916	58	803	393	670	1,924
2	Lahaina Census area 314.05 Population is from the 2020 Census, before the August 2023 Lahaina fire, which destroyed much of the town. Use current County of Maui figures for Lahaina.	6,442	33	599	438	812	1,882
3	Kahului Census area 319	5,325	29	609	489	517	1,644
4	Waiheʻe-Waiehu Census area 309.03	7,636	50	849	264	385	1,547
5	Kahului Census area 311.06	4,690	29	547	259	358	1,193
6	Kaunakakai Census area 317	4,827	35	820	19	237	1,111
7	Makawao Census area 304.04	6,005	38	818	120	109	1,085
8	Lānaʻi City Census area 316.01	3,218	22	513	175	368	1,079

#	Community (Census area)	People in the risk area	Use power-dependent medical equipment (estimate)	People with a disability	Speak English less than well	People in households without a car	Needs total (a person can be in more than one column)
9	Pukalani Census area 304.06	6,552	48	683	112	219	1,062
10	Kahului Census area 311.05	6,530	53	542	331	90	1,016

Source: people and needs – CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022 estimates), HHS emPOWER and FEMA National Risk Index v1.20; community names – 2020 Census blocks and places, spellings from USGS GNIS.

More needs in the largest communities

Community (Census area)	Hearing difficulty	Vision difficulty	Cognitive difficulty (memory, decisions)	Age 65 and older, living alone
Waikapū / Waihe‘e-Waiehu Census area 308	258	118	239	244
Waihe‘e-Waiehu Census area 309.03	223	39	307	86
Wailuku Census area 310.01	189	20	250	233

Source: ACS 2020–2024 5-year Census-area tables B18102 (hearing), B18103 (vision), B18104 (cognitive) and B09020 (age 65 and older living alone), times the share of each area in the risk area; homes in 10+ unit buildings: CDC/ATSDR SVI 2022 (E_MUNIT, housing units).

How to reach residents

Channel	Owner (proposed)	Support (proposed)
Official alerts: Wireless Emergency Alerts / Emergency Alert System and county alert sign-ups	County Emergency Management (each county)	Hawai‘i Emergency Management Agency (HI-EMA)
Broadcast radio, including in-language programs where available	County Emergency Management (each county)	Hawai‘i Emergency Management Agency (HI-EMA)
Outdoor warning sirens: a signal to turn on radio, TV or phone alerts for instructions	Hawai‘i Emergency Management Agency (HI-EMA)	County Emergency Management

Channel	Owner (proposed)	Support (proposed)
Trusted community messengers: faith-based groups, Native Hawaiian organizations, health care providers, community nonprofits	Hawai‘i Department of Human Services (DHS)	Faith-based organizations, Office of Hawaiian Affairs (OHA), Health care organizations (incl. managed health care), Hawai‘i VOAD (Voluntary Organizations Active in Disaster)
Printed notices at shelters, libraries and schools, in the county's top languages	County Emergency Management (each county)	Hawai‘i State Public Library System, Hawai‘i Department of Education (DOE) – schools

Source: proposed channels and formats in the plan's communication pathways – supports, does not replace, county and State public-information plans.

Populated Census areas whose land point is farther than 3,400 ft from every outdoor siren (HI-EMA manufacturer rating; actual range varies): **24**.

Populated Census areas with less than 50% of people within rated siren range (13): prioritise WEA, radio and trusted messengers. Ha‘ikū-Pa‘uwela (302.03, 302.04); Hāna (301); Kahului (311.04, 311.06, 311.07); Kualapu‘u (318.01); Kula (303.05); Kula / Kēōkea (303.04); Launiupoko / Mā‘alaea (320); Wailea (303.06); Wailuku (310.01); rural near Ha‘ikū-Pa‘uwela (302.01)

Source: Hawai‘i Emergency Management Agency public siren map (locations of permanent outdoor warning sirens; no live status). Rated range: 3,400 feet, the manufacturer rating published by the Hawai‘i Emergency Management Agency; the real range varies with terrain, buildings and weather. In range: within 3,400 feet of a siren, the same method as for the tsunami zone. Shares of people are 2020 Census block populations whose block internal point is inside (Census TIGER internal points), divided by the Census area's 2020 block population; the share is then applied to the area's population.

Accessible formats for every message:

- **ASL video:** short American Sign Language video of each message
- **Captions:** captions on every video and broadcast
- **Large print:** printed notices in large print
- **Plain language:** short sentences, one action at a time
- **Screen-reader-friendly text:** plain text or tagged web pages, not images of text

Languages: people age 5 and older who speak English less than "very well" (Kaua‘i + Maui)

Kaua‘i and Maui share one language list: the Census survey reports both counties (and Kalawao) as one area, so they cannot be separated.

Language	People	Margin of error (90%)
Ilocano	9,131	±1,439
Tagalog/Filipino	5,074	±926
Spanish	1,711	±554
Japanese	1,339	±417
Marshallese	633	±488

Language	People	Margin of error (90%)
Hawaiian	515	±289

Source: ACS PUMS 2019–2023 5-year (validated against the DBEDT State of Hawai‘i Data Book 2024, Table 1.44).

Draft messages are available statewide in Chinese, Hawaiian, Ilocano, Japanese, Korean, Pidgin, Spanish, Tagalog and Vietnamese; Chuukese and Marshallese need translators.

All languages

All languages in the survey for Kaua‘i + Maui: people age 5 and older who speak English less than "very well"

Language	People	Margin of error (90%)	Reliability
Ilocano	9,131	±1,439

Source: ACS PUMS 2019–2023 5-year (validated against the DBEDT State of Hawai‘i Data Book 2024, Table 1.44).

Low reliability: margin of error large compared with the estimate (coefficient of variation above 40%), or too few to estimate (fewer than 100 people or 10 survey responses).

Pre-approved message templates: none yet; no machine translation without human review.

8. Sources and assumptions

Planning factors

Factor	Value	Source or team assumption
Shelter-seeking rate – Hurricane	2% / 3% / 5%	South Carolina EMD, 2026 Hurricane Response Annex G (planning factors 2%, 3%, 5%)
Shelter-seeking rate – Wildfire	2% / 5% / 11.2%	high = observed Maui 2023: 1,418 people in shelters on Aug 11, 2023 (Maui Now) / Lahaina CDP population 12,702 (2020 Census) = 0.1116, rounded to 3 decimals = 0.112 (so the calibration event falls inside the band). low and central are Team assumption.
Shelter-seeking rate – Tsunami	2% / 5% / 11%	Team assumption: central 5%; low 2% = hurricane planning factor (SCEMD); high 11% = observed Maui 2023 no-notice total-loss rate
Shelter-seeking rate – Inland flooding	2% / 5% / 11%	Team assumption: central 5%; low 2% = hurricane planning factor (SCEMD); high 11% = observed Maui 2023 no-notice total-loss rate
Shelter-seeking rate – Coastal flooding	2% / 5% / 11%	Team assumption: central 5%; low 2% = hurricane planning factor (SCEMD); high 11% = observed Maui 2023 no-notice total-loss rate
Footprint – Hurricane	Every Census area	Hurricanes affect whole islands (Lala, Lowell 2026).
Footprint – Tsunami	Share living inside the tsunami evacuation zone	Population share inside the State standard tsunami evacuation zone. Extreme zone is reported separately.
Footprint – Wildfire	Top 25% of Census areas by FEMA risk score	Counties lead mass care, so each county plans for its own highest-risk tracts (Team assumption).
Footprint – Inland flooding	Top 25% of Census areas by FEMA risk score	Counties lead mass care, so each county plans for its own highest-risk tracts (Team assumption).
Footprint – Coastal flooding	Top 25% of Census areas by FEMA risk score	Counties lead mass care, so each county plans for its own highest-risk tracts (Team assumption).
Floor sqft 72h	20	Florida DEM Sheltering Guidance Aid (2010): emergency evacuation shelter, <=72 h
Floor sqft 2wk	40	Florida DEM (2010): short-term shelter, <=2 weeks
Water gal per day	1	Florida DEM (2010)
Meals per day	2	Florida DEM (2010): two hot meals a day plus snacks

Factor	Value	Source or team assumption
Persons per toilet short term	20	Florida DEM (2010): short-term shelter, <=2 weeks
Power outlets per power dependent person	1	Team assumption
Persons per toilet 72h	40	Florida DEM (2010): emergency evacuation shelter, <=72 h
Staffing ratios (one staff member per N residents)	client registration 1:165, dormitory management 1:100, meal service 1:110, mental health 1:250, public health medical 1:200, security 1:100, sanitation 1:200, children area 1:12	One staff member per N shelter residents, minimum 1 when the shelter is open. Florida DEM (2010) staffing metrics; the source marks them as recommendations.
Dog owning household share	0.446	AVMA U.S. pet ownership statistics (2020 data). Verified in 2022 AVMA Pet Ownership and Demographics Sourcebook, p. 3: 'Dog ownership increased by 6% from 38.4% (2016) to 44.6% (2020)'. The first url did not resolve when checked 2026-10-27.
Cat owning household share	0.26	AVMA (2020 data). Verified in 2022 AVMA Pet Ownership and Demographics Sourcebook, p. 3: 'Cat ownership increased slightly from 25% in 2016 to 26% in 2020'.

9. Results

- **Coverage:** 436 of 436 Census areas have needs data (FEMA risk data joined for 435 of 436). Source: coverage check of the needs layer (CDC SVI 2022, FEMA NRI v1.20).
- **Backtest – Lahaina wildfire (2023-08-11):** observed 1,418 people in shelters; model 254 / 635 / 1,423 (low / likely / high). This is a calibration event, not validation: the high rate was set from it. Source: Lahaina 2023 backtest (Maui Now count of people in shelters).

10. Stress tests – what could break

Stress test, not a forecast. Each test changes one thing in the plan (a site closes, two hazards strike together, a road is cut, more people come) and counts who is affected, from the plan's own data. Deterministic code computes every number from the plan's data; people review the results.

Top 10 for Maui – Hurricane and all-hazard tests, ranked by people affected (at most two from one test). The full list, with every test, is in the app (Stress tests).

1. **All 'flooded highway' segments (sea level rise 3.2 ft) closed – Maui** (test 24: Road closures (driving))
   70,875 people in areas with a longer drive, fewer known sites within 45 minutes, or cut off (Census areas cut off from every 2026 site: 1; most minutes added to any known site: 92).
   Census areas cut off (over the limit or no route): 1 · Census areas cut off from every 2026 site: 1 · Census areas losing known sites within reach: 18 · Census areas with no route at all: 1 · Census areas routed: 27
   Sources: Esri ArcGIS routing with road closures (build time); highway centrelines: Hawai‘i DOT HPMS and surveyed mile markers (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time); county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Hawai‘i DOE public schools (Hawai‘i Statewide GIS); Hawai‘i Sea Level Rise Viewer, potential flooded highways at 3.2 ft (PacIOOS, via Hawai‘i Statewide GIS). Team assumptions: Every flooded-highway segment on the island closed at once (sea level rise 3.2 ft scenario): all segments.
2. **Lose Baldwin High School and Mayor Hannibal Tavares Community Center (Social Hall) (hurricane)** (test 2: Two sites lost)
   69,957 people in the risk area pushed outside a 15-minute drive to a usable 2026 site (Census areas pushed outside a 15-minute drive: 15; people more than losing either site alone: 23,964).
   Census areas left with no usable 2026 site on the island: 0 · Census areas pushed outside a 15-minute drive: 15 · Drive limit (minutes): 15 · Island: Maui · People more than losing either site alone: 23,964
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time).

3. **Lose Baldwin High School and South Maui Community Park Gym (hurricane)** (test 2: Two sites lost)
   68,514 people in the risk area pushed outside a 15-minute drive to a usable 2026 site (Census areas pushed outside a 15-minute drive: 18; people more than losing either site alone: 22,521).
   Census areas left with no usable 2026 site on the island: 0 · Census areas pushed outside a 15-minute drive: 18 · Drive limit (minutes): 15 · Island: Maui · People more than losing either site alone: 22,521
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time).
4. **Honoapi‘ilani Highway (Route 30) at the Pali and at Olowalu** (test 24: Road closures (driving))
   68,353 people in areas with a longer drive, fewer known sites within 45 minutes, or cut off (Census areas cut off from every 2026 site: 0; most minutes added to any known site: 103.7).
   Census areas cut off (over the limit or no route): 0 · Census areas cut off from every 2026 site: 0 · Census areas losing known sites within reach: 18 · Census areas with no route at all: 0 · Census areas routed: 41
   Sources: Esri ArcGIS routing with road closures (build time); highway centrelines: Hawai‘i DOT HPMS and surveyed mile markers (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time); county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Hawai‘i DOE public schools (Hawai‘i Statewide GIS). Team assumptions: Closure location along the highway (a stretch of about 0.8 km): team assumption.
5. **Stranded visitors for 3 or 7 days – Maui** (test 21: Stranded visitors)
   55,290 visitors on an average day (island level).
   By length of stay: 3 days: 331,740 meals, 165,870 gallons of water; 7 days: 774,060 meals, 387,030 gallons of water · Visitors on an average day (2025): 55,290
   Sources: DBEDT State of Hawai‘i Data Book 2025, Table 7.06 (average daily visitor census, 2025); Florida Division of Emergency Management, Sheltering Guidance Aid (2010). Team assumptions: Every visitor on the island is stranded and needs meals and water from mass care (upper bound): 100%.
6. **Lose Baldwin High School (hurricane)** (test 1: One site lost)
   45,993 people in the risk area pushed outside a 15-minute drive to a usable 2026 site (Census areas pushed outside a 15-minute drive: 10).
   Census areas pushed outside a 15-minute drive: 10 · Drive limit (minutes): 15 · Island: Maui · May need a public shelter (likely): 1,379.8 · Site: Baldwin High School
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time).

7. **All four counties at once (hurricane)** (test 9: Several counties at once)
   43,517 people who may need a public shelter (likely), counties together (cots: 43,519; shelter staff per shift: 2,921).
   Cots: 43,519 · Counties: Kauai, Honolulu, Maui, Hawaii · People with limited English in shelter, by language (interpreters): Chinese: 247; Chuukese: 57; Hawaiian: 27; Ilocano: 369; Japanese: 201; Korean: 99; Marshallese: 24; Pidgin (Hawai‘i Creole English): 25; Spanish: 29; Tagalog/Filipino: 302; Vietnamese: 65 · Meals per day: 87,036 · People in shelter (likely): 43,517
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; Florida Division of Emergency Management, Sheltering Guidance Aid (2010); ACS PUMS 2019–2023 5-year (limited-English speakers by language); shelter-seeking rates in the plan (South Carolina EMD 2026 Annex G; Maui 2023 observed; team assumptions).
8. **Honolulu and Maui at once (hurricane)** (test 9: Several counties at once)
   35,247 people who may need a public shelter (likely), counties together (cots: 35,248; shelter staff per shift: 2,357).
   Cots: 35,248 · Counties: Honolulu, Maui · People with limited English in shelter, by language (interpreters): Chinese: 239; Chuukese: 57; Hawaiian: 18; Ilocano: 302; Japanese: 180; Korean: 99; Marshallese: 16; Spanish: 9; Tagalog/Filipino: 277; Vietnamese: 65 · Meals per day: 70,495 · People in shelter (likely): 35,247
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; Florida Division of Emergency Management, Sheltering Guidance Aid (2010); ACS PUMS 2019–2023 5-year (limited-English speakers by language); shelter-seeking rates in the plan (South Carolina EMD 2026 Annex G; Maui 2023 observed; team assumptions).
9. **Lose South Maui Community Park Gym (hurricane)** (test 1: One site lost)
   22,521 people in the risk area pushed outside a 15-minute drive to a usable 2026 site (Census areas pushed outside a 15-minute drive: 8).
   Census areas pushed outside a 15-minute drive: 8 · Drive limit (minutes): 15 · Island: Maui · May need a public shelter (likely): 675.6 · Site: South Maui Community Park Gym
   Sources: CDC/ATSDR Social Vulnerability Index 2022 (ACS 2018–2022), HHS emPOWER, FEMA National Risk Index; 2020 Census blocks; county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Esri ArcGIS routing (drive-time matrix, normal traffic, build time).
10. **Honoapi‘ilani Highway (Route 30) at the Pali and at Olowalu – walking** (test 25: Road closures (walking))
    12,413 people in areas with a longer walk to a 2026 site or cut off on foot (Census areas with a longer drive to a 2026 site: 3; most minutes added to the nearest 2026 site: 627.6).
    Census areas cut off (over the limit or no route): 0 · Census areas cut off from every 2026 site: 0 · Census areas losing known sites within reach: 0 · Census areas with no route at all: 0 · Census areas routed: 39
    Sources: Esri ArcGIS routing with road closures (build time); highway centrelines: Hawai‘i DOT HPMS and surveyed mile markers (Hawai‘i Statewide GIS); Esri ArcGIS routing (walking time, build time); county announcements of sites opened in 2026; FEMA flood zones and tsunami evacuation zones (Hawai‘i Statewide GIS); Hawai‘i DOE public schools (Hawai‘i Statewide GIS). Team assumptions: Closure location along the highway (a stretch of about 0.8 km): team assumption.

This is not a statement that the area has no shelter: counties designate and open shelters for each event, and many public buildings are not on the 2026 list.

11. Questions for counties

These need county knowledge. The plan has no data for them, so it shows no numbers.

1. **Shelter buildings in an earthquake or a strong hurricane:** Which shelter buildings have been assessed for earthquake and hurricane-wind resilience, and which need a check before they are used after a strong event?
2. **Resupply for Molokaʻi and Lānaʻi:** How would water, food, cots, fuel and medical supplies reach Molokaʻi and Lānaʻi if the harbours or airports close for several days, and who decides the order of shipments?
3. **Cell network outages:** Which areas lose mobile phone service first in a long power outage or after wind damage, and how will warnings and shelter information reach them (radio, sirens, door-to-door)?
4. **Schools used as shelters:** When a school is used as a shelter, how long can it stay open before classes must restart, and where do residents go next?
5. **Partner capacity:** Could each county collect partner capacity (cots, meals, staff, vehicles, interpreters) with a county-run form such as Survey123, with no personal data, so the plan can show pledged capacity instead of 'confirm with partner'?
